

Symbols in Word

Numerals in circle

From the Menu, select Insert...Symbol...Symbols Tab...Font: OpenSymbol...Character code from Unicode (hex).

There are several sections of a numeral in a circle on the OpenSymbol font screen and each set has different unicodes. Use the symbols with matching codes as listed below.

All rendering to HTML (but not easy to read) except zero inside the circle.

Symbol	Unicode
①	24EA (not rendering)
①	2460
②	2461
③	2462
④	2463
⑤	2464
⑥	2465
⑦	2466
⑧	2467
⑨	2468
⑩	2469
