

Module 1 – Module name here (the title should reflect topics listed in the course specification)

Module overview

Optional diagrammatic view (e.g. concept map or flowchart). Sometimes with explanatory text to clarify structure, sequence, stages of learning etc.

Objectives

On successful completion of this module you should be able to:

- state the objective to reflect the course specification
- state the objective to reflect the course specification

Learning resources

A list of the resources needed for the module (e.g. set text, selected readings, audiovisual materials, other references, print or online).

Text

List the texts here and chapters to be used for the module.

Selected readings

1.1: Give full reference of readings in the relevant referencing style.

1.2: Give full reference of readings in the relevant referencing style.

Internet resources

List if applicable.

Key terms/concepts

Optional list of the main ideas to be covered.

Introduction

This is an opportunity to ‘set the scene’ for the module, and to identify any particular issues relating to the scope and context of the work being studied. It is not always necessary to write an introduction.

1.1 Topic name

Insert the topic details which could include items such as tables, images and multimedia. Insert activities as required.

1.1.1 Sub-topic name

Insert the sub-topic details.

Include further topics and sub-topics as required.

Conclusion

Insert details.

Recommended references

If required, list the reference details of extra readings.

References

A list of references actually used or referred to in the module.

All in-text references need to have full publication details in this list.

List references in alphabetical order.
