

Course overview

Concept Maps

To help you grasp the relationship between various parts of this course I have provided a series of concept maps. These maps are hyper-linked to each other and to the course content, so if you wish to know more about a particular concept then click on the link within the map.

These concept maps provide:

- an alternate means of navigation into the study material.
- a means for you to see where the material you are studying fits it to the larger picture.
- a summary of the main terms and concepts.
- the interrelationships between terms and concepts that form the body of knowledge on Computer engineering.
