If required, add acknowledgement details.

Course overview

For example, could be text and/or an image.

Learning objectives

List the objectives to reflect the course specification.

Course resources

Introductory material

Example: This material provides a general overview of the course and administrative information.

Study modules

Example: The study modules are the key learning resources. They contain the outlay of the course, objectives and a general introduction. Learning exercises to test your achievement of the learning objectives are included. The modules provide guidance for the use of your text and selected readings.

Textbooks

If required, list the textbook reference details.

Selected readings

If required, refer to how these are used in the course.

Further readings

If required, refer to how these are used in the course.
